

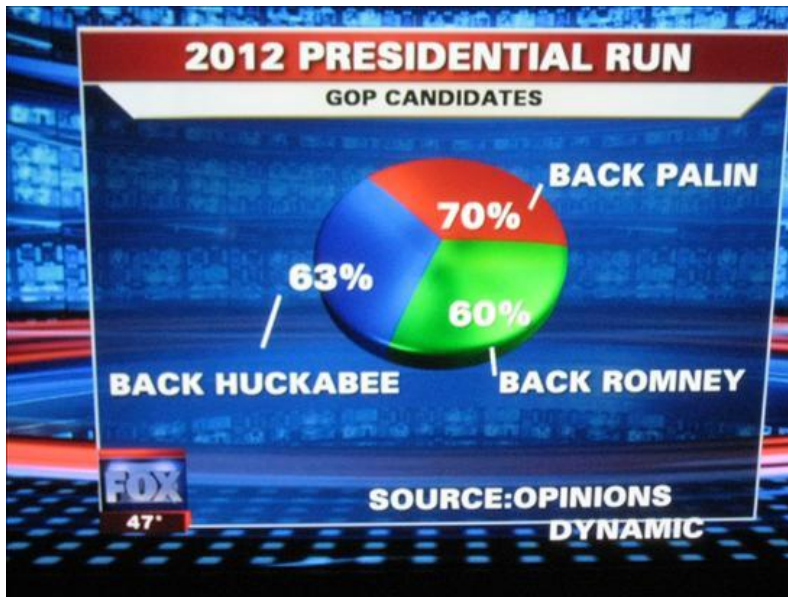

# Graphics Lies & Misleading Visuals

## Assignment

1. locate and identify a visual that displays misleading information
2. Identify mechanisms for misleading i.e. hiding relevant data, displaying too much data and obscuring reality, and distorting data through graphic forms
3. explain how it was used to mislead.

The image apparently refers to the 2012 presidential race, where we can see that the statistics are wrongly distributed, so the pie chart goes above 100%

### Misleading Components:

- **Component:** Wrong statistics
- **Mechanism:** Wrongly distribution information
- **Explanation:** The information present in the chart is completely wrong, as this type of chart divides the percentages obtained from the data into 360°.
